CURRICULUM

Circle Time

Circle Time is the time of day when we get together and have fun! We explore stories, experience songs, play unique games, ask questions about the world we live in and act just plain silly.

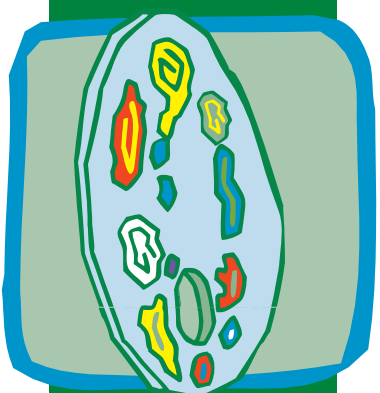

Messy Table Activities

Every school child should have a messy table. At the Messy Table we smooch shaving cream between our fingers, mix colors, experiment with different textures, blow milk bubbles and put our hands to work experiencing the world. The possibilities are endless at the messy table.

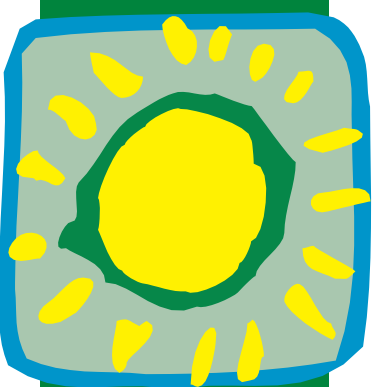

Cut and Color Table

Pre-schoolers are Pre-readers and Pre-writers. We will provide your child with activities that give them skills, strengthen small muscles reinforce left-to-right eye movement and build language skills. The Cut and Color table gives the pre-schooler the confidence he needs to embark upon his next big adventure: Kindergarten.

Creative Arts Projects

Creative arts projects will encourage self-expression. Give a child a paintbrush and you'll see his creativity blossom. Give a child collage material and a bottle of glue and you'll see his unique spirit unleashed.

Outside Games & Activities

Oh! How wonderful it would be to have child-like energy again. Every pre-schooler should have a balance between outside free play and structured movement activities.
